

## Dedicated Transportation

### Extra care for your most critical data

#### INTRODUCING DEDICATED TRANSPORTATION

Developed while working with some of our largest financial services clients, Iron Mountain® Dedicated Transportation offers additional layers of security specifically designed to meet the growing protection needs for your most critical data.

#### Dedicated Transportation

With Dedicated Transportation, your backup media is never co-mingled with other customers' data. All media is transported on a dedicated vehicle equipped with InControl™. InControl ensures the protection of information while in transit with patent-pending security, tracking and auditable chain-of-custody.

#### Dual-Driver Team Option

Rather than a single driver, the Dedicated Transportation offers the option of two highly-trained Iron Mountain employees, one of whom is assigned to stay with your media at all times. At no time are your materials out of sight.

#### Special and Critical Service Options

To meet your project-based needs, additional Dedicated Transportation options may be added as needed.

Examples include:

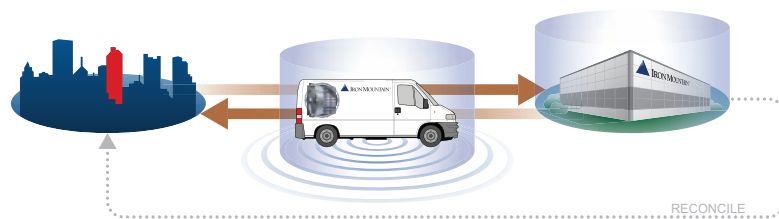

- Air transport for distances greater than 1,000 miles
- Test Disaster Recovery programs
- "One time only" tape library moves

#### AHEAD OF THE CURVE

The development of Dedicated Transportation comes at the request of our clients who manage increasing amounts of sensitive personal and financial client information. With more than five million data-protection deliveries per year, Iron Mountain is driven to develop solutions that help protect our customers' brand and reputation.

We would like to work with you to develop a solution that will fit your needs. To learn more about how Iron Mountain Dedicated Transportation can work for you, call us at 800.899.IRON or visit [www.ironmountain.com](http://www.ironmountain.com).

### DEDICATED TRANSPORTATION

#### DEDICATED TRANSPORTATION

Dedicated transport from your facility to the Iron Mountain vault guarantees that your information is not co-mingled with other customers' media.

#### INCONTROL™

InControl has unique vehicle security features, driver training, and standard operating procedures which provide ultra-security for backup media in transit.

#### DUAL DRIVER TEAM OPTION

An additional, highly trained Iron Mountain employee ensures that your media is never out of sight.
